Relationships: After The High School Years—Young Adulthood

WHO & WHAT

Neurodivergent young adults ages 18-22 will meet with their peers to connect and learn together. The group will provide a safe place to talk about individual goals and struggles, and to recognize individual strengths and challenges as they transition to adulthood. Topics will be identified by the group members and the clinician leading the group. Group members will build awareness and skills necessary for a happy adulthood through discussion, instruction and practice. This group is appropriate for motivated young adults who are interested in continuing to learn and to develop relationships after high school.

WHEN & WHERE

Thursdays October 27th - December 15th 5pm-6pm
No group on Thanksgiving
In person at Florissa

www.facebook.com/FlorissaDixon

COST

The group is free of charge, but space is limited so sign up soon!
